

FMCSA Systems Release Notice

July 30, 2011

On July 30, 2011, the Federal Motor Carrier Safety Administration (FMCSA) released a number of updates to the FMCSA Portal.

FMCSA Portal

FMCSA implemented the following changes in the Portal:

1) Application Fixes

- Fixes an error that deleted data after Driver last name column in Portal Company Inspection detail download report
- Corrects an error that was misidentifying certain letter types as Show Cause letters
- Account Request Form no longer allows incomplete or erroneous request data to be submitted if Step 2 is bookmarked
- Updates the Portal's Online Help to show the new process for the Account Request Form
- A profile is activated only if there is an approved role
